February, 2002

PT® Clear Zone® 511
Metered
Air Fresheners

MAKING PEST MANAGEMENT MORE PROFITABLE

**Prescription Treatment® brand
Clear Zone® 511 Metered Air Fresheners**
*Freshen any room with the pleasant fragrances of
PT Clear Zone 511*

PT Clear Zone 511 Metered Air Fresheners are natural oil fragrances and odor counteractants that can be used alone or with a battery operated dispensing unit to control odors and freshen rooms.

What PT Clear Zone 511 Metered Air Freshener fragrances are available?

PT Clear Zone 511 is available in tropical Pina Colada, Country Bayberry and Citrus fragrances.

What are the best placement locations for PT Clear Zone 511 Metered Air Fresheners?

Locations include offices, entry areas, hallways, employee lounges, restaurants, locker rooms, cafeterias, maintenance rooms, restrooms, refuse areas or anywhere unpleasant odors occur. Dispensers should be positioned approximately 7 feet off the ground to achieve the best product dispersion. Note: For best results, do not place units in a direct airflow.

Do I need special equipment to apply PT Clear Zone 511 Metered Air Fresheners?

No, PT Clear Zone 511 can be applied by hand or with a battery operated dispensing unit.

What is an odor counteractant and how does it work?

Odor counteractants change the chemical structure of odor producing molecules. The odor counteracting ingredient in PT Clear Zone 511 Metered Air Fresheners binds with and breaks down certain chemical odors to minimize unpleasant smells.

How will this product help a PMP increase revenue?

Every account has at least one location where unappealing odors could be a problem. PMPs can increase revenue by using PT Clear Zone 511 as an add-on service to existing residential and commercial accounts. The addition of PT Clear Zone 511 to their monthly service can control or prevent unappealing odor problems from occurring. The customer will appreciate the convenient delivery systems, the additional service your company provides, and the fresh fragrances.

Where is the EPA registration number on the PT Clear Zone 511 Metered Air Fresheners?

PT Clear Zone 511 Metered Air Fresheners are not EPA regulated chemicals and do not require a special registration number.

What is the coverage area of PT Clear Zone 511 Metered Air Fresheners?

A 6.6 ounce can of PT Clear Zone 511 Metered Air Freshener used in a battery operated dispenser will cover approximately 6,000 cubic feet or a normal room size of 25 x 25 sq. ft.

How often should I change the PT Clear Zone 511 Metered Air Fresheners?

The pressurized can of PT Clear Zone 511 Metered Air Freshener will last over 30 days.
